"FOR THOSE WHO APPRECIATE  
QUALITY & STYLE"

UK Manufacturers  
& Wholesalers

**HAND CRAFTED SOFA RANGE**

COLLECTION 2024

## Our story

We are a family run business that was founded in 1979.

We have built our reputation on high quality craftsmanship, leading edge designs in fabrics used of the highest quality. We are determined to provide a fast and efficient delivery service.

Our 90+ work force ensures all items leave us in immaculate condition.

With quality and customer service in mind, you are sure to find the perfect balance of style and comfort.

Our ranges are diverse enough for any home/showroom. From contemporary to traditional, we pride ourselves in specialising in bespoke, made to measure models to fit into any living space.

Our sofas are complimented by our high-quality fabrics which include Chenille, Velvet, flat weave, as well as a range of faux leathers.

We are proud to offer a delivery service extending throughout the UK and Ireland with a concept

that guarantees delivery from production to your warehouse within 3-4 weeks.

**For more enquiries, please contact our head office on:**

**(+44) 1254 264156**

**[info@redrosefurnishings.com](mailto:info@redrosefurnishings.com)**

Each and every Red Rose product is crafted in our 65,000 sq ft production facility, based on a 3-acre site, located in the heart of Lancashire. Our purpose-built showroom allows all trade customers to come on site, to view our products in a warm and friendly atmosphere.

# Quality standards

From our traditional favourites to our modern and classical sofas, our ranges are designed to suit every individual needs.

## Frame constructions

Our frames are made from the highest quality, A-grade hard wood birch.

All frames are then assembled using screws, staples and the addition of glue to reduce creaks. Always ensuring all fundamentals to our sofas remain as solid and hard wearing as possible.

## Interiors

**Base** - All of our seat bases come with zig zag springs (no sag springs) followed by a silent wire holding all the springs together giving the same tension on each spring for extra comfort and support. This is followed by a nylon fabric support on top of springs.

**Seats** - For all our seat cushions we use a 7" polyurethane foam which is a high quality 40 density foam which will give a longer lasting shape. This is then followed by a 200-gram Dacron wrap wrapped around the seat foam to give the extra comfort and style needed.

**Backs** - All of our back cushions are filled with conjugated hollow fibre. The fibre is self-carded in our own factory then blown to fill cushions to give maximum quality.

We use 12-15 denier fibre for extra support.

## Machinery

We are always updating our state-of-the-art machinery. To make our company's production line more efficient, and allowing us to produce high quality products, and significantly increase capacity.

## Bespoke

While we offer several standard sizes, we understand that rooms come in all shapes and sizes, so we're flexible too.

If you want your sofa to fit a specific space, we can tailor its width to suit your requirements. Take the opportunity to choose from a selection of seat cushion interiors to exercise your artistic side.
